### Dear Friends and Readers:

The year of 1974 has been our best year in the sale of books and occult supplies in our book store and by mail. We thank each and every person for their patronage, for your kind letters and gifts of food, clothes and money.. To Miss Helen Luddish, Fairbank, Pa and the Jerry Vogel Music Co., 121 West 45th St, New York City. God Bless all and a pleasant summer. James S. Rigberg

## Enquirer Awards \$5,000 to Helicopter Crew for 1973's Most Valuable UFO Evidence

By ALLAN A. ZULLO

A four-man U.S. Army helicopter crew that experienced a terrifying midair encounter with a UFO has won a \$5,000 award from The ENQUIRER's Blue-Ribbon Panel on Unidentified Flying Objects.

"It's an extraordinary exciting case which has posed a most impressive challenge to science," said the panel, which awarded the money to the crew for supplying the most scientifically valuable UFO evidence for 1973.

The panel — composed of five leading scientists and educators — met in New Orleans April 20 to consider five claims, out of hundreds submitted to The ENQUIRER, for the \$50,000 reward offered for the first positive proof of the existence of UFOs.

The panel members agreed unanimously that none of the claims merited the \$50,000 award, but all voted in favor of giving \$5,000 to the helicopter crew for their UFO experience.

Panel member Dr. Frank Salisbury, professor of plant sciences at Utah State University, explained: "The only thing that holds us back from awarding the \$50,000 prize is that although this is one of the strongest sightings we've come across, it is purely a witness sighting without tangible evidence, such as photographs."

The bizarre incident occurred on the night of Oct. 18, 1973 — about 50 miles south of Cleveland. Major Larry Coyne, the helicopter pilot, was shaken up by the appearance of a UFO. "The UFO was dangerously close," Coyne said.

In the December 16 issue of The ENQUIRER, they described the UFO as a 60-foot-long cigar-shaped, metal-

lic gray object with a dome on top, and said it hovered over the helicopter for a few seconds.

At the moment the UFO had swooped overhead, the helicopter was at an altitude of 1,500 feet and going down. But when the UFO vanished seconds later, the chopper was at 3,800 feet. Such a rate of ascent is impossible for a helicopter that takes a full minute to climb 2,000 feet under maximum power.

The Army has taken an uncharacteristic interest in this incident:

"We have no reason to doubt the truthfulness of Major Coyne's report," admitted Lt. Col. Andrew Sullivan, Army spokesman at the Pentagon in Washington. "Major Coyne and his crew were the people closest to the object and they have reported their findings to us. The incident is described in our records as the sighting of an unidentified flying object."

Panel member Dr. James Harder, professor of engineering at the University of California at Berkeley, said: "I can't find any holes in their story."

Added panelist Dr. Robert Creegan, professor of philosophy at State University of New York in Albany: "Their instruments confirm that they encountered this strange phenomena. I think it is one of the most challenging cases to science that I have ever seen."

The caliber of witnesses "is above reproach," said panelist Dr. R. Leo Sprinkle, associate professor of psychology at the University of Wyoming.

Panel member Dr. J. Allen Hynek, chairman of the Dept. of Astronomy at Northwestern University, said: "It's utterly out of the question that they would endanger their careers and pensions by falsifying this encounter."

## People Are Saying ...

### UFO'S IN NORTH CAROLINA? Well, SOMETHING.

James Barringer, a photographer for the Salsbury Evening Post, got a call last Christmas season regarding some "strange flashing lights" from one of their subscribers in nearby Dukeville section.

He was anxious to see what the subscriber, Terry Hinceman, reported seeing, manned his cameras and drove to the Hinceman residence about 7 P.M. There they were.

"I could see the lights flashing without glasses," Barringer said. "There were a couple of bright lights, like large stars, low on the horizon. They appeared to be standing still.

"Looking at the objects through field glasses, they were most definitely red, blue and white flashing lights. They seemed to stay stationary in the sky for a long period of time.

"They had more of a yellow tone than the bright white light of a star," Barringer said.

He called a couple of airports, though the lights didn't move at a regular rate as planes do, but was told there were no flights in the area.

He called the NC State Highway Patrol, was told such reports were common, but his "sighting would be reported to the FAA."

He called Dr. Martin Sholtzberger, President of Catawba College. He wanted to take a picture of what he saw, but the objects were too far away for his cameras. Maybe through those big telescopes at the Catawba Observatory. . .?

Dr. Sholtzberger wanted to help, but the people responsible for the observatory were on vacation or out of town. Barringer went home. The lights were still there. He called neighbors, they could see them, too — FOR SEVERAL HOURS.

A call to Barringer at XCN press time gave no clue to the UFO's, but he told XCNews there were several sightings last week, when the object was close enough to make an image. It was round, those same flashing lights, and when it flew away, "made a noise like a jet, but we don't have any jets around here," he said. Sorry, Barringer still doesn't have a picture of what's in the North Carolina skies.

## What's new?

**INFO** The International Fortean Organization will hold its annual convention at Shoreham-Americana Hotel, Washington, D.C. August 9-11 1974 Their address is I.N.F.O. P.O. Box 367 Arlington, Va. 22210. This is the 100th Anniversary of the birth of Charles Fort.

**A.P.R.O.** June 15, 1974 Pottstown High School at Pottstown, Pa. \$3.00 Speakers were Dr. Salisbury, Betty Hill, wife of Barney Hill from the book Interrupted Journey by John Fuller now out-of print and L.J. Lorenzen President of A.P.R.O. almost 300 people attended the meeting. Courtesy Elizabeth Kling.

**U. F. O.** Space & Science convention June 28, 29, 30th 1974 Van Nuys, Calif. Dr. Frank Stranges head of this organization always does well with his group.

**Note----** All U F O organizations may have their notices posted in our book store but you must give us ample time since we publish only twice a year.

**U F Os INTERPLANETARY VISITORS** by Raymond E. Fowler This is the latest U F O book we have available to our readers. 365 pages Hard covers Illustrated with photos. This book brings together, under one roof real and exacting evidence. It is not a novel but rather for the serious investigator. I would recommend this to any researcher.

James S. Rigberg, Publisher  
This book is on our best seller list and is available at this time. Send your order now to Flying Saucer News 359 West 45 Street, New York, N.Y. 10036 Or you may purchase it in our book store.

Tokyo, Japan August 1, 1974

Japan goes all out for the UFOs. More than 60,000 are members of a single group in Japan! This is the first country to erect a monument to the UFOs. Members of the Japanese Embassy staff pay our book store a visit and purchase several UFO books. Late breaking story----- A wealthy Japanese business man has spent thousands of dollars to erect a white monument to the UFOs. He claims to be a contactee. He employs several care takers.

Sweden--- a new substance left by a UFO proves to be harder than any metal on Earth !

U F O EVIDENCE Patrick Thrush 16 years of age found three rocks which a UFO dropped on his car just before Christmas 73' He turned them over to Prof. Stanton J. Friedman to analyse at the University of Florida.

People studying the Flying Saucer problem have a higher I Q than others statistics have proven this to be true.

#### NAVY WON'T CHANGE THEIR STORY

The Antoine Betz family of Jacksonville, Fla found a mysterious ball. The Navy states flatly that it is only a stainless steel ball and that it has been made on this planet. Earth. However, Mrs. Betz isn't giving up, She is convinced it's not so. She points out that when her dog comes near it he whimpers. And another thing she says is that the ball moves in different directions by itself."

Atlantic City, New Jersey

Flying Saucer News invites you to visit their new BOOK STORE. We have a new address and have been here for 4 years. We mention this because we are still receiving mail from our old addresses. Our new address is 359 WEST 45 ST, New York, N.Y 10036 We are between 8th and 9th Avenues No Steps.

Coming from near the horse's mouth from a reliable source I have been advised that Gray Barker, the publisher and writer of the Saucerian Press of West Virginia is about to call it quits. Known in the UFO field for some twenty years he has contributed much with his writing ability as well as giving lectures.

Barry Goldwater, a staunch conservative Senator from the state of Arizona, has become a board member of the National Investigation Committee On Aerial Phenomena. The good Senator has served as a Major General in the Air Force Reserve and has confided that he does believe our planet Earth has been visited by creatures from outer space and that our planet is not the only one with intelligent life. Let us say Amen to the Senator's wise remarks..

Edward U. Condon, most infamous name in the flying saucer history and head of the Condon Committee To Investigate U F O's has passed on March 25, 1974.

Salvador Freixedo, Wilson 1366 Santurce, Puerto Rico 00907 author of a UFO book in Spanish language is now in the process of having translated into the English language. He hopes to have it ready by the end of this year.

#### U F O CONTACTEE VISITS OUR BOOK STORE

A young American male who refused to give his name The incident took place December /4. We are convinced he is telling the truth. George is all he would give as identification. He avoids publicity Story may break in a few weeks.

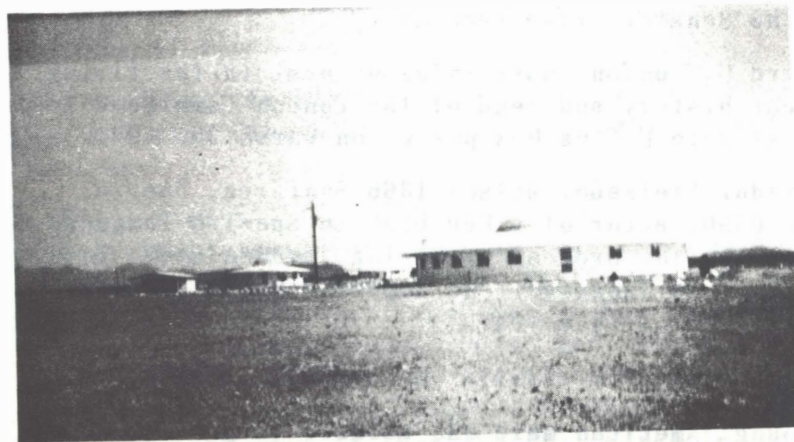

#### WHAT ARE WE WAITING FOR ? ?

10-26-73 Elizabeth, Ky. Reports poured into the local police and radio stations in this area. The FORT KNOX CIVIL DEFENSE DIRECTOR IS QUOTED AS SAYING " UNLESS SOMETHING OF AN EMERGENCY NATURE THERE IS NOTHING WE CAN DO " Apathy my good man!

# Route TO THE STARS

UNIVERSAL FAITH AND WISDOM ASSOCIATION BUILDS BASE  
STAR ROUTE—TONOPAH, ARIZONA 85354

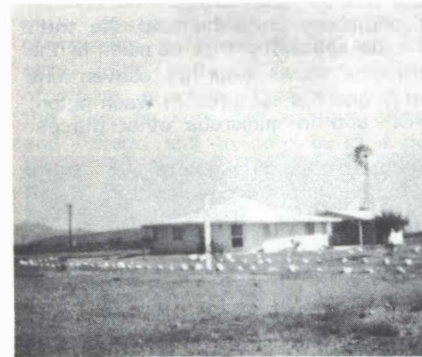

*These three saucer shaped buildings are the unusual start of a space colony in the Arizona desert.*

This is the age of Spirit and Space, of change, growth, and advancement. Old things have passed away. Behold, all is becoming new. The good people among us want to know the truth about things here and hereafter. They want a world of righteous living, of peace, security, prosperity, with a chance to live constructively, free from the slavery of war and conscription, murder, crime and the handicaps of evil habits. Many are coming to realize that all the strength and force of a person comes from God, from faith in things unseen.

We are here in our Universal Faith and Wisdom Association, Inc. to help people to realize these ideals. We live and work at present on 65 acres of fertile desert land that with water will grow practically anything. We have two water systems. Students could raise at least part of their own food. Beauty surrounds us with magnificent turquoise-colored mountains, and daily we are almost always sun-kissed, and with evening sunsets that are out of this world for loveliness.

We are a part of the Western Section of the Kingdom of God, so predicted by the late Edgar Cayce, the "Sleeping Prophet," "The Miracle Man of Virginia Beach," "The Greatest Mystic of the Present Century," and a special friend of the writer. This great genius has promised later to read the etheric or Akashic records of those who are interested in such. This will be a great privilege and will change the lives of many, as it did with us, who knew him so well and learned so much from him.

*The first building completed under the direction of space people. Note that the conformation of this dome (Saturn type) varies from the domes in the photo on the previous page.*

We have plenty of the necessities of space and fresh air, free from radioactivity and the poisonous gasoline fumes of the cities. Our pioneer Institution of Spirit, Space, and Practical Learning is located in the lovely progressive state of Arizona. Our motto is Light More Light. We are nonprofit, religious, nonsectarian, coeducational, eclectic, research, and with *special emphasis on the eternal union of Knowledge and Spiritual Development*. We serve the whole person—mind, body and spirit. The fulfillment of this statement can make a new world for us of righteousness, health, peace, prosperity, safety, plenty and of God-consciousness. This can be accomplished with the help of Deity, the Space People, and our own hard and constant work.

Full attention will be given, not only to practical learning—things of the physical world, but to Extrasensory Perception, and to the Universal and Biblical "Gifts of the Spirit" that St. Paul would not have us ignorant of. Also we give ourselves to the rectifying

of perhaps the greatest educational and spiritual crime of the Earth planet, and that is remaining silent as to all teaching of what follows so-called death, and the other side of life. We send our children and adults in ignorance in another world and type of living without any preparation, often through lack of training and knowledge, to wander, confused and bewildered, perhaps for all eternity, in some cases, in "the outer darkness" that the Lord Jesus Christ tells of. Those ministering angels spiritual beings of whom in Psalm 91 the Lord says "He will give His angels charge over thee," are disregarded and thought of as being dead in graves waiting a final judgement. Also, those even brought up in orthodoxy have the curtain drawn over the passing and what obtains on the other side of life and are consigned to graves to rot until a supposed final judgement—all this when there is no death anywhere in all of God's universe—a fact proved by our greatest religionists, scientists and researchers, and by the return of innumerable people well-known to Earth in the Bible and elsewhere. People live and work on the other side, beyond the grave, almost immediately. Among those returned in the Bible was Elijah and Moses that talked to Jesus about His decease on the Mount of Transfiguration. Samuel returned to talk with King Saul about matters immediately to take place, and numerous others that have communicated after their passing to Spirit, to the world beyond so-called death. More recent communications, and those of the present time have been investigated and proved true by our greatest top scientists, investigators world-known, such as Sir Oliver Lodge, Sir Wm. Crookes, Sir William Barrett, Alfred Russell Wallace, Doctors F. W. H. Myers, Crawford, Geley, Flammarion, Lombroso, Richet, Schrenck-Notising, Zollner, and others too numerous to mention of various nations.

Our Association does not attempt to do the work of the Government schools. We are remedial and supplementary, filling the gaps in between the Old and the New Age education.

Since we are a pioneer Space colony, among other things, and predicted to grow not only into a great city, but into an Empire, we should say a word about our Space friends. They tell us the

writer is one of the first three they contacted when they returned to Earth in the 40's to prepare the tenth of the population that is to be salvaged in times of destruction, to start the New Age and a New World. It was natural that they should come to one of their own Venusian volunteers on this Earth and disclose their plans, which for some years until others also knew had to be kept secret. The Association is being built under their instructions, round buildings, domed, in white or pastel shades. At present we are in need of a dormitory and its furnishings, a cafeteria, dining room, kitchen with its equipment, extra cottages or motels for visitors, also equipment for recreational grounds, and more land for farming purposes, with the enlargement of our water systems. These are a few of our needs, as the Association grows. We expect those interested will supply gifts, leave their Wills to us, and possibly some will desire to come and live among us, in this predicted safe place, when the tribulations and cataclysms increase. Already we have a large number of fruit and nut trees growing with grapevines and shrubs, with some vegetable gardens against the days of shortage of food and water.

Out here in the open desert we have many Space contacts. There are some ten million Venusian spacecraft surrounding our Earth under the Christian Commander Ashtar, whose "A" is sometimes seen in the skies, and other times in the desert sands. We have spoken with Ashtar many times, and almost nightly see some of his ships over by the California border or in the skies. Numerous people from various states have crossed the continent to see them, to talk with the writer, and to borrow some of the 6,000 volumes in our free lending library concerning Space and Spirit. People are building up around us, and the new Highway Ten is within a stone's throw.

Not all the Space ships are from Venus, for there are a few from Jupiter, Saturn, and Mars. The Space People will often prove themselves on request by changing colors, lighting up, blacking out, moving themselves from one place to another and placing themselves by a certain requested ship to answer a question with this sign. In the past they have on occasion made a figure eight in the sky and repeated the sign on request. We

have seen Mother Space ships that fill the horizon at near view, as in Florida, and we have seen, some of us and described, a beautiful, luminous female captain of a small ship that came into the Little Chapel in the Woods to speak with Brother Ernest Kapp, of Butler, Pennsylvania. Many of us have made visits to Buck Nelson in the days of great persecution, because he had made a trip in the flesh to Mars, the Moon, and Venus and his pension was taken away. We did what we could to help.

The neighbors knew he told the truth about his Spaceship trip, as much of the world now knows from his conventions yearly, and his lectures in Washington, D. C., and in numerous other places.

*Founder and indefatigable educator Rev. Enid S. Smith, Ph.D., stands at entrance to the Universal Faith and Wisdom Association grounds in the Arizona desert.*

Those who wish to study and become a part of us, must present a certificate of health from a reputable physician. There must be no communicable diseases. Students should be interested in Spirit and Space, in the new education and its new methods, be willing to study and work, grow and improve. For the first time in history, as far as we know, there has been a revolt against the present system of education and its methods. This may be because of the failure of education to meet modern needs with practical knowledge and efficiency. Students are tired of impractical learning, crams, exams, costly expenses, sacrifices, waste of

time and effort with little or nothing to be gained or retained.

Research indicates that in some areas of learning there can be a 100% benefit — and this is where largely the emphasis should be placed — in such areas as religion, mental development in practical considerations, such as ability to reason, to find new facts for oneself, to think freely and independently, to use the library constructively, to follow directions, to develop a suitable personality, and build a worth while character, with the qualities of promptness, perservance, courage, non-estry, faith, enthusiasm, consideration of others, courtesy, humility, and with the like, to work and improve oneself and others, and to help build a good world, Christ-conscious, putting God first, others second, and self last. The curriculum will consist of many of the following subjects, dependent on the number of applicants of study and on teacher availability:

Remedial English, Speech, Sermon and Lecture Preparation, Creative Writing (Prose and Poetry), Bible, Old and New Testaments, Comparative Religion, Art, Music, (Instrumental and Vocal) Chorus Work — Association Chorus to visit in churches and give programs. Students should study one additional language, Spanish or German, Spiritual Phenomena,

People ask about the founder of the Pioneer Space Colony, Universal Faith and Wisdom Association, Incorporated. A person's work is always a portrait of him or herself. Rev. Dr. Enid Severy Smith is a woman will known internationally as an educator, writer, artist, lecturer, minister and missionary, a social and research worker, a college professor who has won national and educational honors and has worked on national and international projects. She received her preparation in many of the best universities in America and abroad where she has lived, worked and traveled extensively. Among numerous other scholastic degrees, her Ph.D. was earned at Columbia University, New York City. She has taught in several colleges throughout America, as well as in India, Burma, and Hawaii, and has founded schools and conducted educational, sociological, missionary, and religious projects on both sides of the ocean.

Parapsychology, Extra-Sensory Perception and Development Classes. Experimental Psychology, Book Reviews and Selective Reading, World History, Botany in connection with Care and Appreciation of Plants, demonstrated by individual gardens. Physical Education: Health, Foods, taught by an M.D. if possible. Personality Development Classes for Self Improvement, Library Research Work, assigned projects. Typing, can be used as part of the work program. Dramatics, Play Production to be used later possibly for Sunday night Religious Skits, also for public entertainment in the Association or plays can be staged elsewhere. A marriage course.

**The Work Program** — In order to charge less for tuition, room, etc. possibly than anywhere else in the world, it is necessary that each student contribute an hour's work per day, for five days of the week, in order to save hiring help for operating the Association. This can be assigned according to individual capacities and desires, in or outdoor work.

Correspondence courses are not offered at this time.

Some students may have the privilege of earning part of their tuition. This is in addition to the work program.

A part of the education consists in cooperation with the EDUCATOR'S SCIENTIFIC PSYCHIC RESEARCH PROJECT the aim of which (1) is to find human channels of expression of mental and psychic energy, (2) to search for and to investigate demonstrations of these laws of nature, and (3) to share the scientific knowledge thus obtained from these studies. Part of the work is done in Home Circles and Development Classes, for which full credit is given as in any other classes.

The new and fascinating subject matter, taught by the simplest quickest, most pleasant and effective methods, is a challenge and a delight to both student and teacher.

As the work expands, colonies will be founded abroad, faculty and students will reside for part of a year in different nations, carrying on studies aimed at achieving a deeper understanding of others, and through understanding, building a world of brotherhood, peace, and Christ-Consciousness. ▲

# MYSTERIOUS VISITORS

## THE U.F.O. STORY

Brinsley LePoer Trench

\$6.95

They hover over atomic research stations and military bases, farms and isolated areas. They have buzzed aircraft, paced automobiles, and dived into the sea. The U.S. Air Force has studied them; astronauts have seen and photographed them.

Why, then, do we try to explain away the existence of flying saucers with theories of mass hallucination and suggestion? Can't our scientists explain these paranormal visitations? Is there a connection between the Sky People and the psychic world? What can history tell us about the UFO's?

In *Mysterious Visitors* an internationally respected "ufologist" presents a possible solution to the UFO enigma and comes to grips with some of the mysteries surrounding the subject. With new interpretations of

the classic sightings of flying saucers and a great deal of original material to add, the author delves into the question of the origins of UFO's: are they from other planets in our own galaxy? Or could they be from other space-time continuums—invisible universes intersecting our own? He offers some new explanations for the riddles of the ages, from biblical times to the present, and gives the reader a glimpse of future contacts with the Sky People. One of his most fascinating sections offers a new, extra-terrestrial explanation of the mysteries of Western religions.

Brinsley Le Poer Trench is the chairman of *Contact*, the world's largest UFO-watching organization. *Mysterious Visitors* is his sixth book.

The Eternal Subject—the continuing saga of the flying saucers—is now reaching a momentous stage. There are signs that we are near a *dénouement*.

There is a saying that truth is stranger than fiction. When all the facts are known about the mysterious and elusive UFOs, this statement will be more than verified.

The Editor

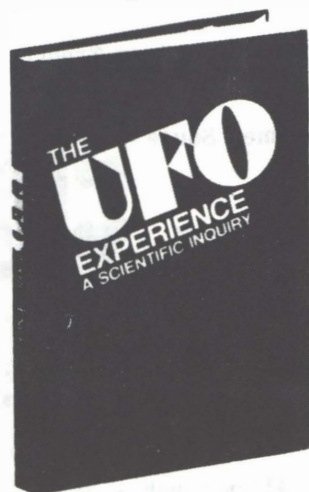

Dear Sir:

My day is made when I get the Flying Saucer News in the mail. I have gleaned quite a bit of U F O prophecy from a Catholic book publisher, and strongly doubt that we are in any danger of being harmed by them.

According to my space chart, Halley's Comet is to return by 1986 and will pass Uranus in 1979. As you may know, its fiery tail is extremely long and wide-ranged. Who can escape it? That is the question. Will it bring death? We study the Bible and find Saints Paul and Peter's warning that in the last days of this age the skies will be set afire and the very elements man depends upon for life will be destroyed by the deadly radio-active rays of a comet?

I maintain that no one is in any danger of being harmed by UFO occupants- unless firstly being fired upon. They are here trying to alert us to the alarming truth that the heavens are ging to melted away with a loud rumbling, as the comet approaches. If people would understand, and believe that they are here to preserve us- take us up- when it comes, and look upon them as our rescuers, then can we escape it. I believe this is why they are observing us. Who shall be chosen? They have tried in vain to make contact, but no one responds.

Sincerely,  
Miss Magdalene Paxton

## The UFO Experience

### A Scientific Inquiry

J. Allen Hynek

Officially, the scientific world, through the publication of the Condon Report, and the U.S. government, through the closing of the Project Blue Book files, have put an end to speculation about Unidentified Flying Objects. Officially, UFOs don't exist.

Yet the evidence used to dismiss the UFO phenomenon by the Condon Committee is scanty in the extreme. Fewer than 100 cases were considered. and even that sample was scarcely random-selected. Many of the scientists assembled to pass on the authenticity or otherwise of UFOs at the University of Colorado brought with them negative preconceptions—hardly the open minds of scientists.

Dr. Hynek was throughout its existence the official astronomical consultant to the U.S. Air Force's Project Blue Book. He is currently the Director of the Linheimer Astronomical Research Center at Northwestern University and Chairman of Northwestern's Astronomy Department. He has served as associate director of the Smithsonian Astrophysical Observatory, Cambridge, Massachusetts. In addition, Dr. Hynek served with NASA as head of its satellite tracking program.

With such credentials and experience, Dr. Hynek does not lightly challenge the official UFO line. But he shows, conclusively, that the case against UFOs has not been proved by the Condon Committee or by anybody else. A residue of reports remains after even the slightly questionable as well as the obviously mistaken and totally erroneous ones have been culled. The cases Dr. Hynek cites raise questions that have never been answered.

The Editor

Dear Jimmy:

Here is a quick summary of what happened at the convention. The 5th annual MUFON symposium was held at Cascade Holiday Inn in Akron, Ohio 6-22-74. The featured speakers were Walt Andrus, Ralph Blum, Barry Downing, Ted Phillips, Bert and Marjie Fish and Stan Friedman. Each gave an overview all talk on their speciality in the UFO field. The symposium lasted around ten hours with breaks given. The convention was very humorous at times with Ralph Blum and Earl Neff supplying the jokes but over all it was a great convention and I hope the next year can match it.

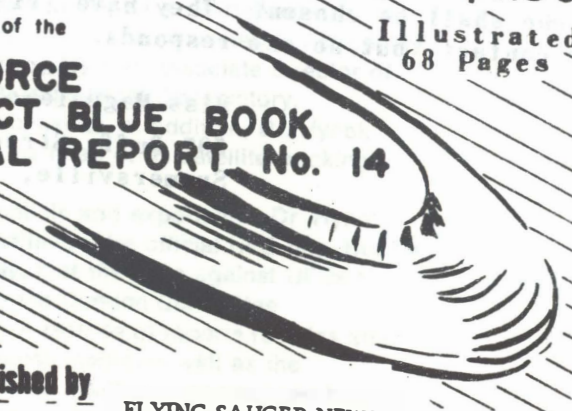

Sincerely

Mark Swift

The Editor

Dear Sir:

The UFO Research Group of which I am the Acting- Director, has concluded that 95% of all reported UFOs aren't hostile, only 5% are (1 in 20).

Some little known reports in my files:  
10-19-74 Harrodsburg, Ky. - Ky. Army National Guard pilot Richard C. Halverson, his co-pilot, and two other pilots in the area sighted UFO. It was a blue-green light in the night-time sky seen from three separate helicopters. UFO was not tracked on radar, according to Bluegrass Field. Official explanation is planet Jupiter, But Halverson, a pilot for 18 years and holder of 6000 hours of flying time, doesn't "buy that". Halverson wrote in an article for the "Louisville Times", of which he is a staff writer.

10-15 and 16th 1974 Munfordville, Ky. Mayor Jim Berry and hundreds of citizens saw "amazingly fast" UFOs. The Munfordville Civil Defense Director has notified the proper military authorities about the incident.

In mid-September, the three Skylab 11 astronauts sighted a "Mysterious reddish object" approach to within 30 to 50 miles of their spaceship.

## THE BOOK OF THE SACRED MAGIC OF ABRA-MELIN THE MAGE

translated by S. L. Mac GREGOR-MATHERS

This remarkable book is a translation of one of the 8000 manuscripts in the *Bibliothèque de l'Arsenal* in Paris, and appears to be one of the purest systems of occultism and magic extant. The author, who was a contemporary of Nicolas Flamel, Pernelle and Christian Rosenkreutz, the founder of the famous Rosicrucian Order, put down in this volume the findings of a lifetime devoted to esoteric pursuits. Writing in order that his discoveries might not be lost, probably, he dedicated the book to his son. He attributes his great fund of knowledge to an Egyptian Mage, *Abra-Melin*, whom he met by chance. This meeting he considered the successful culmination of extensive wanderings in search of the *Light of Initiated Wisdom*.

The manuscript in the *Bibliothèque de l'Arsenal* is written in an eighteenth century hand, in French, and the title page indicates that it is a translation from the Hebrew original of 1458 by Abraham the Jew. The present translator has done an excellent job of putting the French translation into readable English. Long out of print, the publishers believe this book comes as a support to faith and an aid to discrimination in discerning true and false recondite systems, as well as offering instructions which the author affirms to have followed with success.

Illustrated. 4to. Cloth, 268 + xlviii pages. \$8.95

### THE GREATER KEY OF SOLOMON

by S. L. Mac GREGOR-MATHERS

This book contains an unexcelled collection of cabalistic conjurations and pentacles. Edited and adapted from several outstanding manuscripts in the British Museum's monumental collection of occult incunabula, it is very handsomely gotten up, printed on coated paper and leather bound. Much more than a curiosity, it brings the student and the historian efficiently organized sources and readily accessible references.

Illustrated. Crown 4to. Leather, 130 pages. \$6.95

## A famous psychic now shows you how to use your psychic abilities to get more out of life

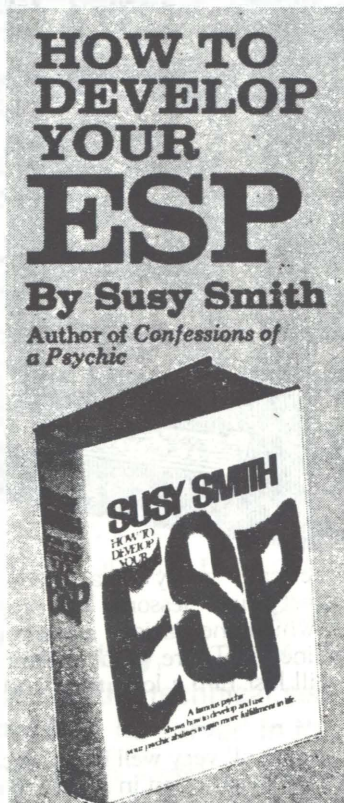

"Almost anyone can develop ESP," says Susy Smith — and shows how in this remarkable new book. Based on the latest research and filled with fascinating case histories, it examines every relevant area of ESP activity and experimentation, including —

- Instant ESP
- Persistent ESP
- ESP scientists
- Psychic children
- Mediums
- Clairvoyance
- Psychic games
- The trance
- Seances
- Parapsychology
- Slate writing
- Possession
- Psychic healing & surgery
- "Development" groups
- Astral projections
- Psychometry ... and much, much more.

Everyone possesses psychic power. You do. But you may be ignoring and wasting that power in yourself ... letting it atrophy through lack of knowledge and use. *How to Develop Your ESP* now offers you the chance to enlarge your innate gift for non-verbal communication, to use it to enrich your daily life and relationships with others. Don't waste another day — order your copy now.

"If you like Ruth Montgomery, you'll love Susy Smith." — *Library Journal*

## The Works of L. W. de Laurence

### THE MASTER KEY

Concentration, efficient concentration, is an ability of paramount importance to the modern mind, and of great popular interest. The fourth edition (and thirty-second printing) of *The Master Key* by L. W. de Laurence, presented herewith, is open-sesame to a depository of untold mental riches.

From a strictly scientific standpoint, it is entirely reasonable and practical to believe that most of those agreeable and successful traits of character whose acquisition is so popular a pursuit today, result from the development of a very few primary faculties, and that of these, the capacity to concentrate is of the first importance. It is the author's thesis that this talent can be developed by definite exercises.

#### A Complete Course in Mental Development

Ramifications of the elementary study of scientific concentration reach into practically every department of mental phenomena. *The Master Key* contains thirty-five lessons of progressive difficulty and forty distinct exercises in which the various aspects of concentration and mental discipline are fully explained. There is abundant material provided for the student, material which will last him a long time and keep his interest in the subject keen and alive.

#### Practical Assistance

Theory is all very well in its place, but what the busy and practical person wants is practical instruction in HOW to develop mental poise, decision of character, the power of disciplined inhibition, a good memory, and the capacity for exclusive attention and observation, for efficient study and for dignified public presence and delivery.

#### Of Universal Interest

There is no hocus-pocus in this book. It gives sound, scientific and practical tuition, and it adheres to a common sense attitude in all practical applications. The *Table of Contents* is too long to include here, but it shows such attractive titles as: *Logical Thinking and Ethical Order*, *The Hurry Habit*, *The Abolition of Worry*, *Interest*, *Habit*, *Will Culture*, *Personal Magnetism*, *Rational and Moral Education Ethically Directed*, *The Poverty Cure*, etc., etc.

#### A Selling "Natural"

Thousands of copies of this book have been distributed in America and Europe, but its sale continues to increase. Presented in an attractive dust-jacket, and of dignified format and manufacture, *The Master Key* has steadily and forthrightly maintained its position as a splendid, all-round text on mental training, eminently useful in any department of life, and of amazing popular appeal.

Frontispiece. 406 + x pages. Cloth \$7.50

# INTERCEPT- BUT DON'T SHOOT.

Ever since the United States Air Force top brass issued this order in 1948, American pilots have been mockingly defied by the Unidentified Flying Objects that frequently invade the air space of the United States . . .

Why hasn't the Air Force authorized its pilots to shoot the mysterious invaders down?

Fear of extraterrestrial reprisal?

Diplomatic protests from the "unknown" power that possesses the biggest secret of our times?

Technological awe dictated by ignorance?

Or, finally, deliberate deceit dictated by circumstances?

These questions are conclusively answered in this book—which reveals *how* the idea of building airships of such unusual structure was born, gives precise particulars about *who* is building them, and establishes the place *where* they take off on their flights, flights that concern the entire world . . .

**\$8.50**

RENATO VESCO was born in Arona, Italy, in 1924. A licensed pilot, in 1944 he commanded the technical section of the Italian Air Force. In 1946-47 he served in the Reparto Tecnico Caccia. Mr. Vesco has been a senior member of the Italian Association of Aerotechnics since 1943, and is a student of aeronautical problems, particularly in the field of jet propulsion. He is a contributor to various aeronautical publications.

Remarkable  
Books

What, in fact, are unidentified flying objects and why do they raise people to an emotional pitch usually reserved for politics, morality, or religion?

This baffling and controversial issue that has intrigued the public for over twenty years is tackled with frankness and objectivity by a group of distinguished scientists in *UFO'S—A Scientific Debate* (December 26; 368 pages, 23 photographs, 5 tables, 2 charts, \$12.50). The book originated in a special symposium organized by the editors, Carl Sagan and Thornton Page, for the American Association for the Advancement of Science. Its purpose: to deal in a serious and systematic way with a puzzling subject that has received sensational publicity.

Every aspect of UFO's is discussed by fifteen experts from such disparate fields as astronomy, physics, meteorology, psychiatry, psychology, and sociology, and by the Science Editor of the *New York Times*. The contributors present photographs and detailed descriptions of sightings and analyze data from radar observation. They propose (and reject) various theories, discuss natural phenomena mistakenly identified as UFO's, and look into the emotional reactions of UFO buffs and sceptics. Special attention is given to unexplained cases and to the possibility that "someone out there" is trying to contact Earth.
